## **NOTICE TO NON-POWER CONSUMERS HAVING ARREAR ALLOTMENT AT CCL**

It is seen that movement of NRS Rakes is getting affected due to mining permit related issues. In the given context, following points are being notified for compliance by Non-Power Rail Mode Consumers of CCL:

### **1) *Submission of FORM B, FORM H and Unloading Destination details directly to siding/ area.***

It has been seen that in some cases rake movement is held up because consumer of senior most rake has not provided mining permit application details to sidings for filing of permit applications. To avoid such situation, consumers should ensure submission of FORM B, FORM H, Details of unloading destination (Name of Unloading Station, Address, Railway Zone) and other associated details required for filing mining permit application DIRECTLY at siding / area immediately after finalization of bid and deposition of coal value so that timely filing of application of permits can be facilitated.

In case such details have not yet been provided by consumers having pending arrear allotments, same should be MANDATORILY done within seven days of this notice.

### **2) *Hindrance in movement of rake due to filing of Annexure D.***

Mining permit shall be applied on the basis of destination filed by consumer at the time of Rail Program submission. In case consumers want to exercise option of changing unloading destination through Annexure D as per provisions of Railway Rules, same should be done before filing of mining permit with intimation to Siding Manager so that correct permit application to be done.

### **3) *Hindrance in movement of arrear rakes due to delay in approval of mining permit.***

It is seen that in some cases, rake movement is hindered due to non-approval of mining permit. CCL shall not be responsible of any loss of loading and consequential losses in such cases where supplies are made by Railways and mining permit is not available at the time of supply of rake.

It is also notified to all Non-Power Consumers that in order to facilitate unhindered movement of NRS Rakes, CCL shall be constrained to request Railways for cancellation of arrear allotment for rakes against which mining permit is not available and is obstructing liquidation of arrears.
