

HEALTH CAMPS

Health camps were organized during the campaign for villagers, students of schools & employees providing essential healthcare services and medical support. These camps aimed to offer free consultations, screenings, and treatments for common health issues, ensuring better access to healthcare for the local community. This year, special focus was given to increase female students' awareness of the importance of hygiene & the associated benefits.

A total of **54 health camps** were organized in CCL, and more than 5000 stakeholders benefitted directly from these health camps, the details of which is as below.
